COURSE CURRICULUM

AI for Content Creation

8 Modules | 50 Lessons | Ideation to Final Edit

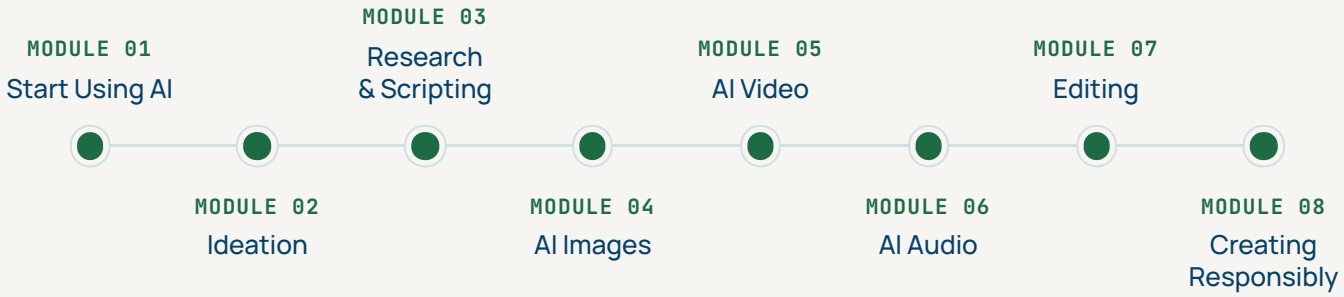

Enroll in the course →

INSIDE THIS COURSE

01 Start Using AI
02 Ideation
03 Research & Scripting
04 AI Images
05 AI Video
06 AI Audio
07 Editing with AI
08 Creating Responsibly

• COURSE ROADMAP

From ideation to the final edit, one module at a time

01
Stop Studying AI, Start Using It
4 lessons

02
How to Ideate with AI?
6 lessons

03
How to Research & Script with AI?
12 lessons

04
How to Generate Images with AI?
6 lessons

05
How to Generate Videos with AI?
6 lessons

06
How to Generate Audio with AI?
6 lessons

07
How to Edit with AI?
6 lessons

08
Creating Responsibly with AI
4 lessons

• MODULE 01

4 lessons

Stop Studying AI, Start Using It

1.1	The AI shift: Why this matters now
1.2	Why AI feels useless sometimes
1.3	How to actually talk to AI
1.4	Beyond prompting: Powerful AI features and tools

• MODULE 02

6 lessons

How to Ideate with AI?

2.1	How AI has changed the content game
2.2	Before you ideate: Know your niche, platform, and audience
2.3	Where great ideas come from: The five sources
2.4	Idea expansion: One idea, a month of content
2.5	From ideas to action: Filter, package, decide
2.6	Building a content engine: From ideas to a system

MODULE 03

12 lessons

How to Research & Script with AI?

3.1	Why research makes or breaks content
3.2	The right way to use LLMs for research
3.3	NotebookLM: Your personal research assistant
3.4	Perplexity: The search engine for deep research
3.5	Fact-checking is non-negotiable
3.6	Finding experts, data, and on-ground sources using AI
3.7	What makes a script actually work?
3.8	Short-form scripts: The hook-body-CTA structure
3.9	Long-form scripts: Research to narrative
3.10	Your first draft with AI: Feed it right, get it right
3.11	Captions, repurposing, and writing across platforms
3.12	Custom GPTs: Train AI to write in your voice

• MODULE 04

6 lessons

How to Generate Images with AI?

4.1	When to use AI images vs. stock and real footage
4.2	The AI image toolkit: Gemini, Flow, Higgsfield and more
4.3	Prompting images: Turning ideas into visuals
4.4	Building consistent characters, worlds, and styles
4.5	Editing AI images: Inpainting, outpainting, and upscaling
4.6	Designing thumbnails that earn clicks

• MODULE 05

6 lessons

How to Generate Videos with AI?

5.1	When to use AI video in your workflow
5.2	Text-to-video vs. image-to-video: Choosing your approach
5.3	The AI video toolkit: Seedance, Runway, Kling, Veo3
5.4	Prompting motion, camera, and composition
5.5	Creating consistent scenes across shots
5.6	Working around AI video limitations

• MODULE 06

6 lessons

How to Generate Audio with AI?

6.1	Creating realistic AI voiceovers
6.2	Voice cloning: Scaling your own voice
6.3	Generating music for your edits
6.4	Creating sound effects and ambience
6.5	Dubbing and translation with AI
6.6	Cleaning and enhancing audio

• MODULE 07

6 lessons

How to Edit with AI?

7.1	What to give AI vs. what to keep creative control over
7.2	AI-assisted rough cuts and assembly
7.3	Editing videos like documents with text-based editing
7.4	Creating captions that match your style
7.5	Turning long-form content into shorts
7.6	AI-powered cleanup and finishing touches

• MODULE 08

4 lessons

Creating Responsibly with AI

8.1 Creator credibility in the AI era

8.2 Bias, misinformation, and hallucinations

8.3 Deepfakes, voice cloning, and IP

8.4 Staying human in an AI-powered world
